

Dear Comrades

27/12/99.

I have decided to send as many as possible out of my write-ups, many of them not published. They will at least give an idea of my line of thinking.

You read them as often as you can spare the time. I made ~~remarks~~ ~~at~~ at the end of nearly all of them.

The BBC has been extra active in tirades of misinformation and disinformation against Marxism (communism).

I am very handicapped because I now work alone. No secretary. No comrade that can spare the time for voluntary assistance.

I have to go to Business Bureau and pay for everything any time I have some money.

I don't see Comrade Efang again.

Any way I do go to the village some time. When the couple owing me can pay, I will arrange that we should meet.

My village, though near Benoni has  
no pipe-borne water or electricity.  
But I enjoy my visits there. I adapt to  
any condition.

The small house there has three  
rooms and a fairly big sitting space.  
There is a pit latrine for two  
at a time with improvised  
toilet seats (wooden) devised by me.  
About 8 feet from the house.

I gave a reply quickly when I  
got yours containing the documents  
and birthday card. I don't know  
whether you got it. It was by post.  
That is why I am registering  
this one.

All the best.

With comradely affection  
and greetings

Curtis Joseph
