In Defense of American Trotskyism

Volume One:

The Struggle Inside the Socialist Workers Party 1979-1983

edited by Sarah Lovell, 328 pages (1992) — \$10.00

This book consists of selected documents mostly produced by a political tendency that was organized in the Socialist Workers Party to defend and advance the revolutionary perspectives of Trotskyism. This tendency, which began to develop in the party in 1979, waged a struggle inside the Socialist Workers Party until the expulsion of its adherents in 1984, when they established a new group called the Fourth Internationalist Tendency. Also represented here are oppositionists who became prominent in other groups — Socialist Action and the Fourth International Caucus of Solidarity. Included are materials produced by two of the oldest and most prestigious veterans in the SWP, Tom Kerry and George Breitman. A substantial introductory essay by Frank Lovell, "The Meaning of the Struggle Inside the Socialist Workers Party," provides valuable background information and places the volume in a larger historical perspective.

Volume Two:

Revolutionary Principles and Working-Class Democracy

edited by Paul Le Blanc, 412 pages (1992) — \$12.00

This book focuses on the waves of expulsions which hit the Socialist Workers Party from 1981 through 1984. It provides an inspiring record — and reaffirmation — of the revolutionary ideas and commitments of those who were being forced out of the organization to which many had given "the whole of their lives." also included are: substantial pieces by SWP leaders Jack Barnes and Larry Seigle defending the expulsions; a critique by representatives of the Fourth International; letters and a talk by pioneer Trotskyist James P. Cannon, originally published under the title *Don't Strangle the Party*. A substantial introductory essay by Paul Le Blanc, "Leninism in the United States and the Decline of the Socialist Workers Party," relates the 1981-84 experience to broader questions of "the vanguard party" and Leninism, the history and character of American Trotskyism, the development of the U.S. working class, and the realities of world politics in the 20th century.

Volume Three:

Rebuilding the Revolutionary Party

edited by Paul Le Blanc, 148 pages (1990) — \$9.00

This book consists of eight documents. The longest, written in 1983 by Paul Le Blanc and Dianne Feeley, is entitled "In Defense of Revolutionary Continuity" — a response to SWP leader Jack Barnes's attack on Trotsky's theory of permanent revolution. Also included is the founding platform of the Fourth Internationalist Tendency, a lengthy 1988 analysis of the SWP by Frank Lovell and Paul Le Blanc, and two major documents produced by the FIT when the Socialist Workers Party formally broke from the Fourth International in 1990. The volume concludes with three documents dealing with the need for unity among revolutionary socialists in the United States.
