## INTRO

THIS month, in a manner characteristic of the *New Horizon* we bring you some thought-provoking issues. Some of them are:

**1** Hell is definitely here! Millions of Nigerians have been SAPPED beyond recognition, the majority are suffering but very few, (members of the bourgeois class) are fattening. There is unprecedented inflation in the land, many cannot afford three square meals daily, affordable transportation, education, medical care and shelter are luxuries. However, many Nigerians have come up with a formula to beat the hardship. They call it the 'unyielding-zero' formula.

The travails of millions of the people as revealed by our indepth study and analysis will definitely make you shudder.

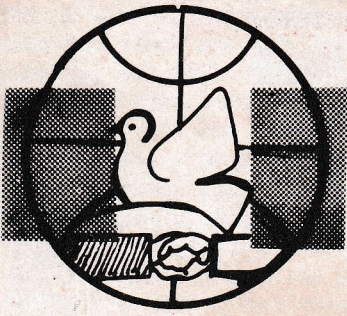

**2** The youth corp members, graduates in the service of the nation are definitely sacrificing a lot in aid of their fatherland. Their stipend was increased from N200.00 to N250.00 per month. But then, in the face of the 'jet inflation' plaguing the nation, they have been banished to servitude. We present to you a mathematical analysis of the wear and tears of their monthly stipend.

**3** The heat is definitely on and, it appears there is no going back. 'Nigerian workers must have a political party. Last month, the workers fired the salvo and now, one of heir natural allies-- the students have spoken, they say it should be so.

## **RELEASE THE NEPA ELEVEN**

THE FMG must release and rehabilitate the NEPA Eleven.

They committed no crime against anybody, least of all the state.

The right of workers to embark on industrial action in pursuance of their legitimate rights when denied is universally accepted. This administration cannot abandon the garb of decency for that of a fascist dictatorship.

Workers, all working people united, appeal for the release of the NEPA 11.

IBB must listen to the voice of the people.
