

can aid pass through

How can we prevent std?

we all know that not only sexual activities in a news paper are plentiful. It is this true? If a child of five years have when having lice.

Amity etc. I have experience. I myself about you. I can't cure it. I am from poor family. we don't have doctor.

ON to the how get into

cases of AIDS in this world. AIDS in his world.

What should we do if we have S.T.D. Do you think we have any hope of being cured.

to continue taking contraceptives intercourse? Will it affect

How does it take for one to see and AIDS/HIV symptom

15yr old

long period of time in the human body. I don't know result to other disease. STD

my question is that: How can we prevent this aids so that girls will not have and having sexual intercourse with them it would pass to them

we are affected. How can we save ourself from these diseases.

A man said that they plan to reduce the population and maximum of a child. The second time they can stop to increase through that size.

Please how can I know she has genital disease

a boy uses Condom to receive the girl, will she tell the S.T.D. If so what is uses of Condom.

AGE :- 18yrs

a Condom actually prevent one from having aids or other diseases.
