Formed in 1962, the Association for Humanistic Psychology is a world wide network for the development of the human sciences in ways which recognize our distinctively human qualities, and which work toward fulfilling our innate capacities as individuals and as members of society.

AHP exists to link, for support and stimulation, people who have a humanistic vision of the person, to encourage others to share this view, and to show how this vision can be realized in the life and work of all.

Membership in AHP is open to anyone who shares these values and wishes to support our efforts.

AHP offers a monthly *Newsletter*, a quarterly *Journal of Humanistic Psychology*; an annual meeting featuring both the theory and the practice of humanistic psychology, regional and international meetings, local chapters and groups around the world, current lists of colleges with humanistically oriented programs, and of growth centers; an extensive bibliography of books in the field, yearly Roster of AHP members, reprints of selected materials at low cost.
